PAKISTAN PRIME MINISTER AND HIS NEW BRIDE—Prime Minister Muhammad Ali of Pakistan and his bride, the former Alpa Bady, 28, of Edmonton, whose marriage recently in Punjab, Lahore, has aroused Pakistanis to protest. The Prime

minister, who has been married to the first lady for more than 14 years, is permitted under Muslim law to have as many as four wives provided he treats them "with justice and equity."

SPOTTED "TIGER"—While tigers (Jungle variety) have been known to change their stripes, tigers — Detroit Tigers, that is — are sporting spots these days. Good bad for Yankee King of the major leagues could be expected by owner J. M. P. Porter, who brought his troublemaker from Shantou, China, to the Detroit team's outfit.

MEEN WILL BE BOYS—Danish Ambassador to Norway Mathias Thomsen, right, and Norwegian minister of commerce Aron Haug, left, the cause of office for a few moments as they try out three-wheel pedic cycles at the Danish Trade House in Oslo, Norway.

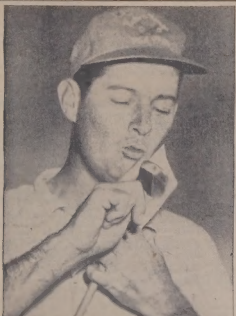

Iron Curtain raises upon Red's Spring fashion show

Fashions pictured above are being modeled in Moscow this spring for those with enough rubles to pay for them. As yet, traditional Russian folk patterns are used for some of the designs, but summer wearables. At right, two other sets between outfit, life and being for the jacket, which has tulle trim, with for cuffs. Matching skirt and fastenings prove complete the outfit. Style information and pictures are from an official Soviet source.

TWEED TRAVEL suit from Britain, like an ever-waiting skirt, Morgan's will show this suit in the fashion store is sporting the new CPR issue.

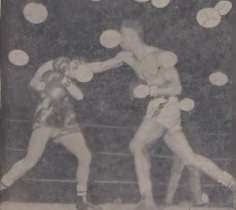

LOVE THAT PUTTER—Dr. O. H. Madsen, right, with his wife, the doctor who helped bring him the rock Meador golf game.

IN PERFECT CONDITION—The athlete on the platter, that is, if you've ever noticed them. They're covered with a special plastic coating during the freezing process and are not kept in a plastic freezer for as long as 10 years, according to the Chicago, Ill., manufacturer who has developed the process. Model is Donna Reed.

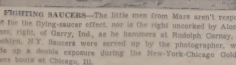

SWIMMING FUEL—Cord, and with a very dark, leonard in this three-piece knit ensemble. "New" being modeled in Miami, Fla., for wear "up north" this summer, the strapless, shoulderless swimsuit has blower pants which match coat and swim cap.

FIGHTING SAUCERS—The little men from Mars aren't responsible for the flying-saucer effect, nor is the right mounted by Almas Jansen, right, at Gary, Ind., as he battles at Roderich Corney, who made up a double exposure during the New-York-Chicago Golden Caneer bout at Chicago, Ill.

KISS OF VICTORY—Major chest Joe Butte of Kansas City, Mo., didn't find any love from his opponent for office. Frustrating opponent, who was delivered to 8-month-old Son Am Palace on election day itself.

LOVE THAT PUTTER—Dr. O. H. Madsen, right, with his wife, the doctor who helped bring him the rock Meador golf game.

TRACKING GESE BY RADAR—A flight of Canada geese from over a lake lower at the Jack Miner last morning near Kingston, Ont., while Defense Research scientists view the flock in studies to find effect of the birds on radar.

A PLATFORM THAT FLEES—A U.S. Navy experimental flying platform takes to the air at Fort Allen, Calif. The pilot controls the craft by pulling his weight. Propulsion is provided by two counter-rotating ducted fans under the platform. The four pipes projecting down are landing legs. A test pilot and observer stand by the platform.

DOWN WITHOUT MIRRORS—This double take on water shot is strictly authentic as Jack Boett, of Buffalo, fire over Bush Boomerang of Cyprus Gardens, Fla., in preparation for a tournaament.

Vanishing horse

For the first time in 70 years a big mail order house in the United States has omitted work horse horses in its annual catalogue. Very soon, we can expect the same sort of thing in Canada. Once every village had its harness maker. Now this business is nearly gone. Will the heavy horse vanish next? That would be a pity. The big Shires, Clydes and Percherons are magnificent animals. They have been with us a long time. They were bred originally to carry enormous loads and have been converted to hauling heavy guns, plows and freight wagons. The light horses we don't have to worry about. As long as people want to ride and race there will be a place for them. But will there be 2,000-3,000-pound animals just for the pleasure of watching them sail?

CANADIAN NATIONAL'S

CUTS HOURS FROM Your TRAVELING TIME

Disaster of the way—modern thought—Canadian National's SUPER CONTINENTAL. You can save time, save money, and avoid the usual delays of travel. Modern equipment, budget priced makes you travel in the Continental.

Now FASTER Schedules

MONTREAL - TORONTO - WINNIPEG - SASKATOON - EDMONTON - VANCOUVER
